HTML / CSS / jQuery

### PROFILE

I am a versatile end-to-end UX/UI designer with 10 years of experience driving elegantly simple responsive web and native mobile projects from concept to launch for the AI, healthcare, telecom, software, e-commerce, and aerospace industries.

### CONSULTANT PROJECTS

OCT 2013 – JUL 2020

I enjoyed building my skillset as a consultant, but I am now eager to utilize it in a permanent role. I have provided UX Design, UI Design, UX Research, and prototyping for customer-facing apps and internal tools for these clients:

#### **Providence St. Joseph Health – Sr. UX Designer**

Provided existing flow improvement and new feature ideas.

#### **Facebook – Sr. UX Designer**

Helped design a dev tool to build voice-activated apps.

#### **Microsoft - UX Designer & Sr. UX Designer roles**

Designed an internal tool to streamline privacy compliance, internal tools to support Cloud Services apps, web pages to simplify the customer support experience, and an internal tool to streamline decision making for customer service managers.

#### **AT&T – Sr. UX Designer**

Registration flow design that reduced call support 4k a month. Championed accessibility compliance efforts.

#### **T-Mobile - UX Designer**

Helped pinpoint and resolve design pattern inconsistencies.

#### **Boeing - UX Designer**

Combined four flight planning apps into one unified suite.

### PERMANENT ROLES

NOV 2009 – SEP 2013

#### **VX Technologies - Front-end developer**

UI layer for apps to track human traffickers and terrorists.

#### **SmarTek21 - Lead UI Designer**

UX Design, UI design, visual design and branding for B2B websites and internal tools for clients.
